EXPERIENCE

Tata Consultancy Services — *Web Developer*
DECEMBER 2022 - APRIL 2023

< **Veolia Water Technologies & Solutions:**
  < Worked in angular 8 upgrading, debugging and maintaining the web-application.
  < Understanding the requirements of the client directly, discussing the available solutions and implementing the best ones.

JANUARY 2019 - APRIL 2023

< **General Electronics:**
  < Upgrading a hybrid project from ionic 4 to ionic 6 and angular.js to angular later version.
  < Implementing features like maps and offline database.
  < Lead and implementation of new features like advanced search with and/or options, adding basic CRUD backend operations, using Java, SpringBoot and JDBC.
  < Completed a whole module of UI independently.
  < Redesigning a UI element with better user experience.
  < Optimized development process by using the latest angular with LESS CSS syntax, bootstrap and angular material, version controlled on Github.
  < Interviewed individuals for the post of UI developer
  < Mentored and onboarded new team members to ramp up and solve critical issues.
  < Was the selected few coders for a hackathon competition where we were to make a reusable feature/s using amazon web services and make an application using the latest micro-frontends with single-spa framework.

< **Thomson Reuters**:
  < Worked closely with Product Owner to enhance user stories and features for a legal search engine platform.
  < Led implementation of new features and bug fixes in the search engine platform
  < Functioned as a front-end developer with technologies like angular and CSS.

Giriraj Digitals — *MEAN STACK Developer*
OCTOBER 2018 - JANUARY 2019

< Created a business to business web application for internal use of local businesses.
< Completed the project within a week using MEAN Stack(MongoDB, Express.js, Angular and Node.js). With features like soft delete and authentication with JSON Token. Other Technologies used- Angular Material, NgPrime, Bootstrap.

Aseum Infotech — *Angular Developer*
APRIL 2018 - JUNE 2018

< Angular web application, was the admin side of an application. This application simply had forms which would reflect the changes made on the application.
< Designed lazy loading, also made dynamic forms where users could add as many features as they like.

Schoogle — *Content Writer*
JULY 2016 - NOVEMBER 2016

< Constructed a new textbook like content for teachers and students. Currently schoogle has been used by 3000 children and over 200 teachers.
< Add activities related to the topics included to make learning more exciting

Freelance Song Composer/Music Production/SoundMixing
NOVEMBER 2014 - PRESENT

< Autonomously worked for Big Brand, **Huggies (top most brands in India)** under a production house, **Digital Clay Studios**.
< Collaborated with a youtube channel called **Emotionalfulls**, (has more than **1,50,000 subscribers**) for **PaperBoat,** made an instant viral for this product where the ad gained more than 10 lakh views in a single day. Besides this also worked with Emotionalfulls personal web series, live play which was performed in IIT Mumbai and also in lions club. Recently did a project with **Satyajit Ray Film and Television Institute** (a very renowned college for Film and television institute) and **Best Sellers Private Limited** (Also a production house that has produced a gujarti movie also)**.**
